

SAASNOW FOR PARTNERS

Just imagine: suppose you were able to create a scalable and flexible SAS® Visual Analytics environment in just several minutes, giving your clients access to the full environment for a monthly fee. Sounds too good to be true, doesn't it?

In conjunction with SAS, cloud provider Amsio has launched an unique proposition into the market, which enables SAS environments to be activated directly through the SaasNow portal. Selling a SAS proposition has never been so fast and easy!

IF YOU WANT YOUR SAS SOFTWARE NOW

SaaSNow provides a complete, live environment of SAS® Visual Analytics and SAS® Visual Statistics within just 30 minutes. SaaSNow answers all client demands in terms of flexibility, speed and time to market. Adding data to the environment is possible through the software, the Data Manager or Secured FTP.

SAASNOW.COM

SAS VIYA

SAS Viya is a completely new analytics and visualization architecture. SAS Viya enables SaaSNow to deploy bigger cloud solutions and to scale up to more than 16 cores. Integrating with existing database environments will be easier. Also more software such as SAS Visual

Investigator can be deployed directly out of the SaaSNow portal. Amsio will integrate SAS Viya as soon as possible and existing customers of SaaSNow can upgrade to this newest version for free.

HOW TO BECOME A PARTNER

By becoming a SaaSNow partner you get direct access to the SaaSNow portal to manage SAS environments. Your SAS® Software is entirely Pay As You Go, you only pay for the environments you use, no initial investment required. To top it off we even pass the SAS license compensations on to you. Partnering is completely free.
